National Weather Service  
*Western Region Headquarters  
Regional Operations Center  
Salt Lake City, UT*

# **WEATHER KEY POINTS**

**12/02/19 - 12/08/19**

## **Monday**

- Rain continues across northern and central parts of California today through Monday
  - Up to an inch of additional rain is expected across the Bay Area and over the southern Sierra foothills with strong winds persisting
    - Torrential rainfall will be possible below 7000 feet in the Sierra foothills through Monday evening
    - Burn scar flooding is highly unlikely today. There are no specific concerns on recent burn scars.
- Significant snow is expected again over the Sierras and far northern CA through Monday evening

## **Tuesday-Wednesday**

- Rain will become widespread along the Central and Southern Coastal region Tuesday and Wednesday but no significant impacts are expected

## **Thursday**

- No impacts are expected

## **Friday-Saturday**

- The next weather system will bring additional rain to northern California valleys and snow to the northern Sierras Friday and Saturday

## **Sunday**

- No impacts are expected
